

# Contents

<i>Contributors</i> .....	vii
<i>Foreword</i> .....	ix
<i>Preface</i> .....	xi
<b>1. Fermented Foods and Their Production</b> .....	<b>1</b>
Fermentation and Food Safety .....	1
Food Fermentation Components .....	4
Diversity of Fermented Foods .....	13
Process Unit Operations .....	15
Process Conditions .....	17
Appendix 1-A: Flow Diagrams for Selected Food Fermentations .....	20
<b>2. Why Fermented Foods Can Be Safe</b> .....	<b>39</b>
Introduction .....	39
Physical Processing .....	39
Microbial Activity .....	41
Overall Significance of Different Antimicrobial Factors .....	48
<b>3. An Introduction to the Hazard Analysis and Critical Control Point (HACCP) System and Its Application to Fermented Foods</b> .....	<b>53</b>
Introduction .....	53
Historical Development .....	53
The Need for Change .....	54
What Is the HACCP System? .....	55
Benefits of the HACCP System .....	56
Areas of Application .....	56

The HACCP System in Food Hygiene .....	57
Application of the HACCP Approach to Food Preparation .....	58
Application of the HACCP System to Gari .....	60
Appendix 3-A: HACCP Principles and Guidelines for Its Application .....	67
<b>4. Chemical Hazards and Their Control: Endogenous Compounds .....</b>	<b>71</b>
Introduction .....	71
Toxic and Antinutritional Glycosides in Food and Feed .....	71
Risks Associated with the Occurrence of Toxic Glycosides in Different Commodities .....	77
Variation in Toxin Concentration among Varieties and Cultivars: The Influence of Traditional Domestication and Modern Breeding .....	83
Removal of Toxins through Processing .....	84
Conclusion .....	88
<b>5. Chemical Hazards and Their Control: Toxins .....</b>	<b>101</b>
Microbial Toxins .....	101
Aflatoxins .....	102
Ochratoxin A .....	105
Patulin .....	107
<i>Fusarium</i> Toxins .....	108
<i>Alternaria</i> Toxins .....	111
Bacterial and Algal Toxins .....	112
<b>6. Toxic Nitrogen Compounds Produced during Processing: Biogenic Amines, Ethyl Carbamides, Nitrosamines .....</b>	<b>119</b>
Introduction .....	119
Biogenic Amines .....	119
Ethyl Carbamides .....	126
Nitrosamines .....	129
<b>7. Microbiological Hazards and Their Control: Bacteria .....</b>	<b>141</b>
Introduction .....	141
Outbreaks Related to Fermented Products .....	141
Bacterial Pathogens of Concern in Fermented Products .....	142

Presence of Pathogens in Raw Materials .....	146
Effect of Fermentation Processes on the Survival of Bacterial Pathogens .....	147
The Control of Microbial Hazards .....	148
HACCPs .....	150
Validation of the Sausage Fermentation Process for the Control of Pathogens .....	152
<b>8. Microbiological Hazards and Their Control: Viruses .....</b>	<b>159</b>
Introduction .....	159
Food-Borne Viruses .....	160
Potentially Food-Borne Viruses .....	163
Assessment of Virus Risk .....	168
<b>9. Microbiological Hazards and Their Control: Parasites .....</b>	<b>175</b>
Introduction .....	175
Nematodes .....	175
Cestodes (Tapeworms) .....	187
Trematodes (Flukes) .....	192
Protozoa .....	200
Conclusion .....	211
<b>10. Biotechnology and Food Safety: Benefits of Genetic Modifications .....</b>	<b>219</b>
Introduction .....	219
Supply Chain of Fermented Foods and Its Importance to Ensure Safe Products .....	221
Two Sets of Examples of Safety Evaluation of Fermented Foods for Which Recombinant DNA Is Used .....	229
Conclusion .....	236
<b>11. Safety Assessment of Probiotics and Starters .....</b>	<b>239</b>
Safety Aspects for Probiotics and Biotechnology .....	239
Safety of Current Probiotics .....	242
Relevance of a Sound Taxonomic Basis .....	242
Transfer of Antibiotic Resistance .....	246

vi Contents

Genetically Modified Organisms .....	246
Conclusion .....	247
<b>12. Practical Applications: Prospects and Pitfalls .....</b>	<b>253</b>
Introduction .....	253
Benefits of Lactic Acid Fermentation .....	254
Pitfalls of Fermentation .....	255
Importance of Food Fermentation in Public Health .....	257
Practical Intervention to Enhance Safety of Fermented Foods .....	259
Research Needs .....	271
Conclusion .....	271
<b>List of Sources .....</b>	<b>275</b>
<b>Index .....</b>	<b>279</b>
